Subject: Offer letter for Senior Data Analyst position

Dear Brenda,

It was a pleasure getting to know you during our recent discussions. We were very impressed with your background and your fit for our culture, and we are thrilled to formally offer you the position of Senior Data Analyst within the Consumer Quantitative Research Team at Sagaci Research.

We believe your expertise will be instrumental in helping us deliver the high-quality insights our clients rely on.

Your Role & Impact

In this role, your start date would be May 18th, 2026. You will play a key part in the full lifecycle of our research projects, with responsibilities including:

- Product Development - Data & Technology: develop new data structure and interface for internal and clients' direct interactions with the product. In partnership with the SagaBrand & SagaCube Managers, define data content needs, analysis needs and reporting infra-structure
- Data analysis process: own, recommend and enable an efficient and high quality process for quantitative data analysis adapted to specific research methodologies and modeling.
- Develop tools and training needed to support the research and scripting teams collaboration and serve as the reference to enable projects' delivery.
- Statistical Validation: serve as a guide to the research team on applying advanced statistical methods. Ensure high quality data analysis, supporting the development of regression, drivers and segmentation modeling
- Dashboard Development: design and maintain interactive dashboards to answer both internal needs and client-direct data interaction
- Research Collaboration: liaise effectively with internal research team members to translate their research objectives into technical requirements. Develop custom metrics within our database to provide deeper layers of analysis
- Act as a day-to-day coach for Scripting and Data Analysts to grow company data expertise

Compensation & Growth

- Annual salary: A fixed gross annual salary of 40,000 EUR, paid in 12 monthly installments.
- Contract type: Spanish indefinite contract (Indefinido) with a standard 6-month probationary period.

- Performance-based growth: We reward impact. You will be eligible for a yearly salary increase, assessed every December and delivered in Feb/March. These increases are based on both company performance and your individual contributions.

Work-Life Harmony & Flexibility

We value your results more than the hours spent at a desk. To support your productivity and well-being, we offer:

- Self-managed hours: A flexible 40-hour week. You can start between 8:00 AM – 10:00 AM, take a midday break between 12:00 PM – 3:00 PM, and wrap up between 4:00 PM – 7:00 PM.
- Hybrid work: Work from home every Friday.
- Work from anywhere: You have the freedom to work from a remote location for up to 4 weeks per year.

The Poblenou Experience

- Our office is located in the vibrant heart of Poblenou, just a 10-minute walk from the beach. You will have full access to our shared kitchen and breakroom, stocked with free coffee and snacks to keep you fueled throughout the day.

Tax-efficient benefits

- To help you maximize your net take-home pay, you have the option to join our flexible compensation scheme via Edenred.
    - How it works: You can choose to allocate a portion of your gross salary to pay for services like Ticket Restaurant or Transport Tickets.
    - The Benefit: Because these amounts are deducted from your gross pay before tax is applied, you reduce your taxable income, effectively increasing your monthly take-home pay through significant tax savings.

We are confident that you will be a fantastic addition to the Sagaci Research team. We hope this proposal meets your expectations and we look forward to your positive response.

If you have any questions at all, please don't hesitate to reach out.
Best regards,

Joao Terlica and Julien Garcier
Managing Directors
